

Student Teacher Ratio Validation (Elementary schools only):

The Student Teacher Ratio Validation applies to Elementary Star rated (1 to 5) schools for Grades 1, 2, and 3. The ratios have been updated for the Fall 2021 Budget Planning Cycle. Budget plans should not be promoted until the student teacher ratio validation check has been calculated and within the -1.50 threshold limit.

In the example above, the ratio in Grade 2 is greater than the -1.50 threshold, thus shaded in red/pink. To resolve this issue, the administrator will need to increase the FTE count for the given Grade level as needed (i.e. add a position) and then return to this form and re-calculate by saving the page.

4. The Student Teacher Ratio Validation form must be calculated and in compliance with the Fall 2021 ratios to be able to promote your budget plan for approval. Schools outside of these ratios can request additional funding by completing the Add-on Approval Form. [Add-on Approval Form](#)
