## Partial Day Absences

To submit an absence for less than a full day, the employee will need to use the **Partial Days** selection bar to access the Partial Days options in order to submit the absence request.

### Certified/Unified Example

In this example, an employee must enter a personal illness absence. They left work early the first day, and then missed the next two full days. To enter the absence request, the **Absence Name** – “Sick - Personal Illness” is selected, and the appropriate date range is entered. Note that the Duration field is populated for three full days. However, the Duration is incorrect because the employee left work early on the first day of the absence. To change this, click the **Partial Days** selection bar (**do not** click directly into the Duration field to modify it).

In the window that appears, click the Partial Days drop-down and select **Start Day Only** since that is the day that the employee left early. Verify **Start Day is Half Day** and indicates “Yes.”

The image shows two screenshots of the 'Partial Days' dialog box. The left screenshot shows the 'Partial Days' dropdown menu with the following options: None, All Days, End Day Only, None, Start Day Only (highlighted), and Start and End Days. The right screenshot shows the 'Partial Days' dropdown set to 'Start Day Only', the 'Start Date' as 12/04/2019, and the 'Start Day is Half Day' toggle set to 'Yes'.

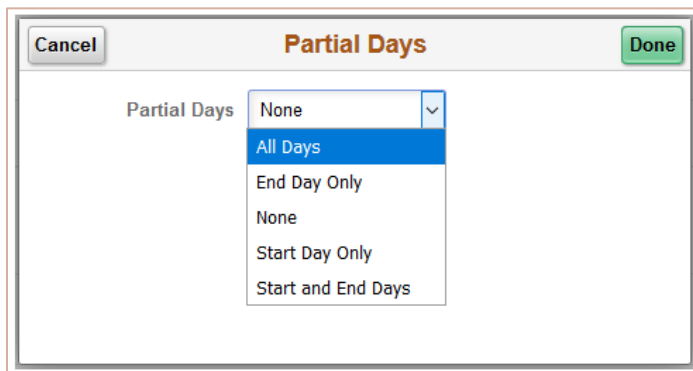

Once finished, click the **Done** button. Verify the **Duration** has populated correctly based on the information entered in **Partial Days**, in this case it shows 2.5 days (12/4 for 0.5 days + 12/5 for 1.0 days + 12/6 for 1.0 days). Finish filling out the absence request, and remember to click **Check Eligibility** before submitting.

The image shows the 'Request Absence' form with the following fields: \*Absence Name (Sick -Personal Illness), \*Start Date (12/04/2019), End Date (12/06/2019), Duration (2.5 Days), and Partial Days (Start Day Only). There is a 'Submit' button at the top right and a 'Check Eligibility' button at the bottom.

## Support Professional/School Police Officer Example

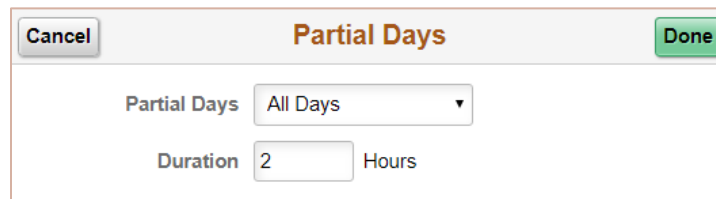

In this example, an employee must take a personal illness absence for 2 hours per day, on three consecutive days. To enter the absence request, the **Absence Name** - "Sick - Personal Illness" is selected and the appropriate date range is entered. Note that the **Duration** field is populated to account for three full days (24 hours). However, the Duration is incorrect because the employee took off two hours early for every date in the absence date range. To change this, click the **Partial Days** selection bar (**do not** click directly into the Duration field to modify it).

In the window that appears, click the **Partial Days** drop-down and select **All Days** since the employee needed to leave 2 hours early all three days.

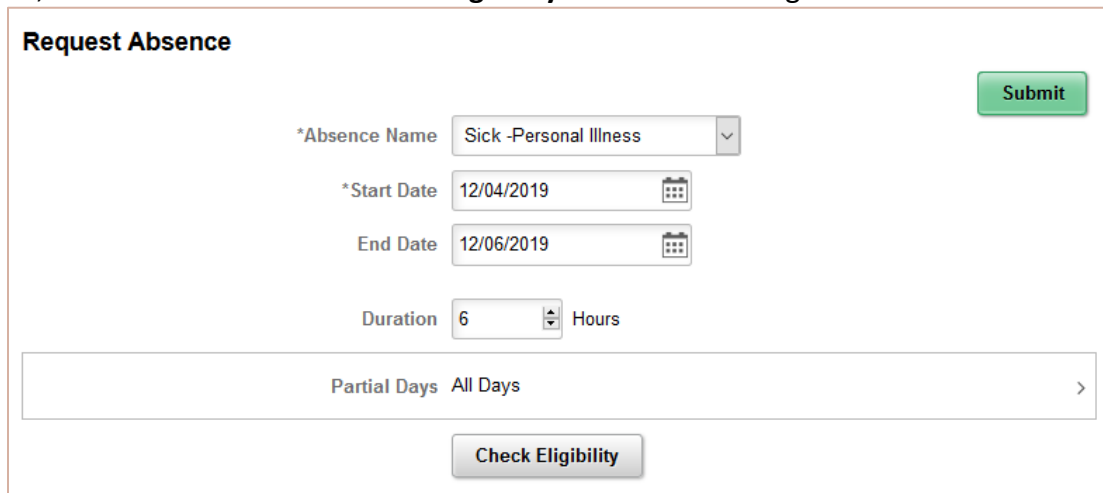

**Note:** If an hourly employee needs to take off a different amount of hours on each day, they must submit separate absence requests.

Enter the appropriate **Duration** (2 hours each day for 3 days).

Once finished, click the **Done** button. Verify that the **Duration** has populated correctly based on the information entered in **Partial Days**, in this case, 2 hours each day for 3 days equals 6 hours (12/4 for 2 hours + 12/5 for 2 hours + 12/6 for 2 hours). Finish filling out the absence request, and remember to click **Check Eligibility** before submitting.

#### Balance Information

As Of 05/25/2019 3.68 Hours\*\*

View Balances	>
View Requests	>

Disclaimer The current balance does not reflect absences that have not been processed.

**Note:** In order for the balance to be available, the Begin and End date on the request must be changed to a pay period **prior** to when the absence request is needed.

*For example,* it is the pay period of 5/23-6/5 and the employee needs to transfer Sick to another record that has insufficient leave to be able to take a sick day on 6/2. In order for the leave to be available to use on the record with insufficient leave, the Transfer Job to Job Absence request will need to have the Begin and End date changed prior to 5/23.

## Support Professional Time Examples

### CTE-Comp Time Earned

Support Professional entering **Comp Time Earned**.

*Remember - Support Professionals must account for any regular (scheduled) hours that they worked.*

As an example, this employee worked 10 hours on Friday: **8 Regular Hours**, and 2 hours of **Comp Time Earned**. The employee records their **Comp Time Earned** by selecting the appropriate TRC and entering the number of comp time hours worked for the day. It is important to add the additional row for the **Regular Hours** to ensure that all hours worked are accounted for. (If the employee entered only 2 hours on that day, their regular 8 hours would **not** be recorded.)

Job Title ADMIN SCH SEC

CTE - Comp Time E: <input type="text"/>						2.00	<input type="text"/> + -
REG - Regular Hour: <input type="text"/>						8.00	<input type="text"/> + -
Comments	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

## CTT-Comp Time Taken

### Support Professional entering Comp Time Taken.

*Remember - Support Professionals must account for any regular (scheduled) hours that they worked. If no regular hours were worked (for instance, if the employee is taking off a full day using Comp Time Taken), then the regular (scheduled) hours do NOT need to be accounted for in the Timesheet.*

As an example, this employee worked 4 regular hours on Monday and then used 4 hours of **Comp Time**. The employee records their **Regular Hours** and then adds the additional row for **Comp Time Taken** - selecting the appropriate TRC and entering the number of comp time hours worked for the day to ensure that all hours worked are accounted for. (If the employee entered only the 4 hours of CTT on that day, their regular 4 hours would **not** be recorded.)

Job Title ADMIN SCH SEC      8 December - 21 December 2019  
 CCSD Bi-Weekly  
 Scheduled 80.00 | Reported 8.00

[View Legend](#) Submit

Week 1 of 2  
 Scheduled 40.00 | Reported 8.00

## Entering Overtime

Support Professional entering Overtime.

*Remember - Support Professionals must account for any regular (scheduled) hours that they worked.*

In this example, the employee worked 8 **Regular Hours** and 1 hour of Overtime on Monday, Tuesday, and Wednesday. The employee records their **Regular Hours** by selecting it from the TRC drop-down list. Click the + (plus) button to add the additional row for the **Overtime Hours**. (**Overtime uses the same Regular Hours TRC.**) This ensures that all hours worked are accounted for. The system will calculate the appropriate overtime pay. (If the employee entered only 1 hour on each day, their regular 8 hours would **not** be recorded.)

## Entering Time for Work Paid by a Different Location

**Support Professional** entering time for work completed at a different location.

*Remember - Support Professionals must enter regular (scheduled) hours worked at the regular location in addition to the hours worked at the second location.*

In this example, the employee worked 8 **Regular Hours** at their regular location on Monday.

This information is entered on the first line, and then the + (plus) button is clicked to add an additional row. In the additional row, the employee selects the TRC for **Regular Hours**, enters the time worked, and then clicks the calendar icon to open the **Time Details** window.

**(Overtime uses the same Regular Hours TRC since the system calculates the appropriate overtime pay.)** The employee then enters the location code where they worked the additional overtime hours and clicks the **Done** button. After all time is entered, the employee would click the **Submit** button. This ensures that all hours worked are accounted for, and the extra time recorded is routed to the appropriate approval workflow location who enters appropriate funding Combo Code.
