## **How do I process time entered for one of my employees by another location?**

- In this instance, **no action is necessary**. The other location is responsible for entering the time, routing it through the approval process, and ensuring that the funds come from the correct funding source/budget.
- **Do NOT delete time entered by another location!** This will likely cause a **retro trigger** that can result in the employee receiving an incorrect paycheck.
- Grants Fiscal Services is currently entering time from electronic and paper C-5's into the HCM system. **Please do not delete.**

This time can easily be recognized by the code **0137** in the Location Code field.

## Instructions for Substitutes being used for Grant Funded School Business

- ➔ When a teacher will be absent for Grant Funded School Business and requires a substitute, an absence request is created in Smart Find Express and HCM. In HCM Time and Absence, the teacher enters school business for the absence name and in the dropdown menu enters the Grant Internal Order (i.e the G number not including the last 2 digits) and Department 0137. In the Comments, enter the name of the school business and the date(s) the sub is required.
- ➔ The Timekeeper then inputs the Substitute time in HCM using the school location number.
- ➔ The substitute will be paid directly by Sub services.
- ➔ Do Not enter a Grant combo code to pay for a substitute.
- ➔ A sub report is generated and sent to Grants Fiscal Services. An expense adjustment will then be completed by Grants Fiscal Service to reimburse sub services for any allowable grant funded substitute charges.
